

Dear Club Contact,

The Executive has been working on the NATC GDPR requirements and wanted to update you with the results of this work double click on the blue underlined words to open the reports.

We investigated what different types of GDPR were relevant to our organisation and after legal advice we are approaching this as an organisation/Association via Legitimate interest. This means we do not have to get permission from every member of the association but do still have a responsibility to safeguard your data.

Morag has produced the following [article](#) which will appear in the next magazine that will hopefully help you understand how we are approaching this.

We have produced a GDPR [guidelines](#) document that you can use as a best practice guide and also a comprehensive GDPR [policy](#) that details our responsibilities.

Now that GDPR is now in place we wanted to let you have all the above documentation, however if you have any questions please contact me via [emailsecretary@tangent-clubs.org](mailto:emailsecretary@tangent-clubs.org)

*Yours in Continued Friendship*

*Heather Parry*

*National Secretary 2018-2020*
