

Hi All,

As some of you will have seen on the Tangent Facebook Jill Harris took ill while attending the Iberian Cluster, Jill was admitted to hospital and underwent a series of tests. As a result Jill was diagnosed as having had a minor stroke.

Her Family were with her at this time and she has now been discharged from hospital.

However Jill will need some recovery time we are hoping to fulfil her commitments, while she is recovering. I am sure you will join the exec in wishing Jill a speedy recovery and safe journey home.

Yours in Continued Friendship
Heather Parry
