

Good afternoon ladies of Norfolk and Suffolk Tangent Clubs!

The members of Dereham & District Tangent Club 791 have recently asked the National Executive to be reassigned to the South East Tangent region, rather than the Midlands region. Your Tangent Executive has no problem with this, but obviously one club cannot be in a different region to those in its county. In this instance, as Essex is already South East, it would also make sense for Suffolk to be reassigned at the same time.

Dereham & District Tangent Club 791 have advised the Executive that they have contacted all the clubs in Norfolk and Suffolk to ask if you are happy to move to the South East Tangent region, and I understand this has been received positively. Therefore, if you are all happy with the move, we shall reassign Norfolk and Suffolk Tangent clubs to the South East following the AGM in April. This will be reflected in the Tangent Directory and in the Regional emails that you receive.

With reference to Regional lunches, Norfolk and Suffolk Tangent clubs will be included in the invites for the South East Regional lunches - of course, you can attend any Regional lunches that you wish!

Please let me, or Dereham & District Tangent Club ladies, know if your club is against this admin change, otherwise it will go ahead as planned.

All the best

Glynis

Yours in continued friendship,

Glynis Sutton

Tangent National Secretary, 2016-18
